

Nonprofit partnership between Unbroken Horizons and Domestic Violence Statute Matcher

Unbroken Horizons, a nonprofit committed to aiding survivors of sexual abuse and kidnapping, is thrilled to partner with StatuteMatcher.org. We are immensely grateful for your generous offer to provide free artificial intelligence services to assist our survivors.

In gratitude, we will collect testimonials and offer quantitative data on how your AI services enhance our support for survivors. This partnership will undoubtedly bolster our efforts.

We're excited to showcase your app and website to our community. Your resources are invaluable, offering guidance on legal processes that can be transformative.

Having experienced abuse myself, I understand the significance of accessible legal resources. I've personally found your tools to be incredibly impactful.

We are eager to explore the limitless potential of our partnership and the positive changes we can achieve together.
